LIFE AND BRING JOY
AND PROPERITY"

WHAT OUR STUDENTS SAY

- EVERY EXPERIENCE
COUNT

PARIDHI GUPTA

MBA 2020-22

I, Paridhi Gupta, took my first step in faith towards LM Thapar School of Management, and the staircase indeed turns out to be top-notch. Since it was a pandemic situation, Honestly speaking just like any other student I was scared too and all those questions crossed my mind ,that How will I study online? But LMTSM has never failed to inspire me right from the Young Business Leaders'

Academy to

the start of the semester classes, be it those lectures by an erudite faculty or special sessions by our awe-inspiring alumni, each and every 'meeting' turned out to be so motivating and insightful. Amidst our busy schedule of classes and assignments, our

astounding

seniors surprised us with Infroshinity 2k20, an e-freshers event! Our first ever cultural event at

LMTSM.. Infroshinity 2k20 gave us, the batch of 2020-22, the grit to organize a day full of smiles and laughters for our prodigious professors; Maestra Fiesta 2k20, the Teacher's Day celebration.

LMTSM never fails to live up to its commitments!

KARAN JINDAL

MBA 2020-22

In my experience with 6 Digi-Weeks, the good far outweighs the bad. At the start it was difficult for me but with the great efforts by all teachers of the chapter made these online classes very interactable. I never felt difficult to communicate with any of the teachers to ask for help or need any clarifications related to the assignments. Till now my experience with the online classes has been rewarding and learning experience. The most wonderful and amazing event the online freshers given by our seniors in the best way they can, it was an enjoyable event as stepping onto a new life begins with a day the freshers' welcome party and in this tough covid times. Teacher's day celebration the infroshinity event organized by our seniors this was the first event which went very well many activities and conversations done with the teachers and teachers also shared their experiences and learnings. At the end it was a very awesome event and very wonderful experience for me.

Confidence is Beautiful

*“Beauty is grace and confidence.
I’ve learned to accept and
appreciate what nature gave me.”*

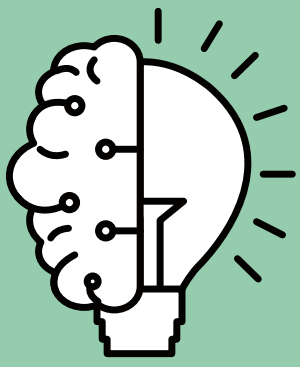

Population growth

IT IS UTMOST IMPORTANT TO CONTROL
POPULATION SO THAT NO.CHILD IS DEPRIVED
OF BASIC LIFESTYLE.

CHOICE IS YOURS

DID YOU KNOW ?

- 1.The term sustainability has its most known roots in the 1987 Brundtland Report which officially defined sustainable development for the first time.**
- 2.Energy is the dominant contributor to climate change, accounting for around 60% of total global greenhouse gas emissions**
- 3.The right to safe drinking water was first recognized by the UN General Assembly and the Human Rights Council as part of binding international law in 2010.**
- 4.When organic matter is landfilled it decomposes and produces gas methane which is up to 34 times more powerful than carbon dioxide over a century, thus contributing to climate change.**

SUSTAINABILITY AWARENESS ON SOCIAL MEDIA

THE
CLOCK IS
TICKING

Apart from wasting 54,000 double decker buses worth of food each year, the average household in Singapore is estimated to throw away \$258 worth of unconsumed food each year!

To minimise food waste, make a list of items to buy before you head to the supermarket! This reduces the chances of impulse purchases and over-buying, which will help reduce our food waste!

Source: Sustainable Singapore Gallery and TODAYonline

That's right, it is **A!** The amount of food waste Singapore generates every year is approximately equivalent to be **54,000 double decker buses!**
